- Pie.
 I wish I could remember! pi
 Eureka cried the great inventor
 Christmas pudding Christmas pie
 Is the problems very centre

Have trouble remembering that number? Just determine what the relationship is between what's above, and you'll have that trouble no longer!

- Freda Fluffball arranged her collection of teddy bears in three rows with four bears in each row (one horizontal row and two vertical rows). By moving only two of the bears to new positions can you create four rows with four bears in each row.

- Take four 20 cent coins and arrange them in such a way that every coin is equidistant from every other coin.
