

Neurological Nasties

XLIII

www.mathxtc.com

- What is bigger than the universe ? Dead people eat it, but if living people ate it they would die ?
 - Can you add the figure 2 to 191 and make the result less than 20 ?
- Here we have three squares, each composed of four matches. Make them into one by taking one match away, and moving only two others.

- Using the same three squares, move three matches to show what matches are made of.
- There are nine dogs in a square pen. By adding two more square pens is it possible to ensure that each dog has a separate enclosure ?
